

Amare Nitro Xtreme™

Healthy Nitric Oxide
Support On Demand

What It Is

A liquid supplement designed with ingredients to support nitric oxide production in the body for physical wellness.*

Why You Need It

Even with the best intentions, it's hard to get everything your body needs from diet alone. When it comes to nutrition, one of the greatest discoveries was identifying the role of nitric oxide in the body. Our bodies make nitric oxide from compounds in food, but sometimes it's hard for our body to get enough of what it needs from diet alone.

How It Works

- **Noni Fruit** – is harvested from the Morinda Citrifolia tree and naturally rich in phytonutrients and antioxidants. It helps the body produce nitric oxide supporting nutrient metabolism, healthy blood flow and physical wellness.*
- **Thiamine** – plays an important role in converting food to energy.*
- **Chromium** – supports glucose metabolism.*
- **Zinc** – an essential nutrient for growth and development, including protein synthesis and helps maintain immune function.*
- **CoQ10** – helps protect cells from oxidative stress.*

The Science

Your body uses nitric oxide to keep key systems running—like circulation, digestion and immune function. Our bodies can produce nitric oxide from compounds in food, and from supplements like Amare Nitro Xtreme which contains Noni Fruit to help support nitric oxide production in the body.*

How to Use

- Use 1 ml up to three times daily, ideally before meals or other supplements.
- Can be taken directly by mouth or added to water or other liquids
- For best results pair with Amare Sunrise® and Amare Sunset®

Supplement Facts

Serving Size: 1 mL
Servings Per Container: 56

Amount Per Serving	% DV
