

Amare Origin™ Chocolate

Plant-Based Protein
to Fuel Your Day

What It Is

A creamy, convenient supplement with 20g of protein sourced from legumes and seeds and enhanced with healthy fats (MCTs) and fiber-rich carbohydrates to support your active lifestyle.*

Why You Need It

Protein does more than build muscle—it supports tissue repair, a healthy metabolism, and helps you stay energized throughout the day. But rushed mornings and hit-or-miss meals make it hard to get the nourishing boost you need to power through your day whether you're fueling an active lifestyle or simply supporting your overall wellness.*

How It Works

Amare Origin™ features 20 grams of plant-based protein to support strong muscles and a healthy weight when combined with a healthy diet and exercise, plus MCT's for fuel, and prebiotic fiber to help maintain a healthy microbiome.*

- **Pea Protein** – a complete protein containing all nine essential amino acids.
- **Pumpkin Seed Protein** – protein with sources of micro and macro nutrients, including carbohydrates, fiber, and amino acids.
- **Medium-Chain Triglycerides** – a type of healthy fat that is readily absorbed and metabolized by the body, making them a quick source of energy.*
- **Chicory Root** – a prebiotic fiber that feeds beneficial gut bacteria, supporting a healthy gut microbiome.*

The Science

Not all proteins are created equal. That’s why we set out to formulate a plant-based protein blend without compromise—none of the dairy, soy, artificial sweeteners or sugar overload found in many protein sources—just functional, plant-based ingredients, MCTs and prebiotic fiber to nourish your gut microbiome in every supplement.*

How to Use

- Simply mix two level scoops in 8 fl oz water, milk, or liquid of choice and enjoy!
- Perfect for before or after workouts, or a healthier snack alternative
