

Amare GBX Burn™

Smart Support for
Weight Management

What It Is

A cutting-edge blend of natural herbs and spices that function as a thermogenic to promote burning fat and metabolic wellness.*

Why You Need It

For many people, even when diet and exercise are in place, weight management remains an uphill battle. That's why nearly 3 out of 4 adults struggle to manage their weight. Amare GBX Burn is formulated with ingredients to help complement diet and exercise so you can push past plateaus and stay on track with your goals.*

How It Works

- **Grains of Paradise** is an ancient, edible spice that's part of the ginger family. It activates thermogenesis, your body's way of creating heat to burn calories.*
- **DyGlomera** is a patented extract sourced from the fruit pods of *Dichrostachys glomerata*, a spice native to the highlands of Cameroon. It supports body's natural GLP-1 production in the gut and helps burn fat.*
- **Carrot Pomace** is packed with natural fiber to support gut health*
- **BCAAs** are essential amino acids that enhance muscle protein synthesis and support muscle function.*

The Science

When there is a disconnect between effort and outcome, it's often linked to metabolic efficiency and gut-brain signals. Our approach is to support your body's internal systems with ingredients for the gut-brain axis, that also support natural thermogenic activity.*

How to Use

- Take 2 capsules of Amare GBX Burn per day with 8 oz. of water.
