

LIMITED EDITION  
FLAVOR

# Amare Electro™ Grapefruit

Essential electrolytes for  
advanced hydration\*

## What It Is

Experience hydration at a cellular level with new, limited-edition Amare Electro Grapefruit—a refreshing electrolyte drink mix with a 2:1 sodium-to-potassium ratio to help you rehydrate and recharge.\*

## Why You Need It

You don't have to be running a marathon to need hydration. Nearly half of adults aren't drinking enough water each day. From school drop-offs, back-to-back meetings, workouts and hot afternoons it's important to keep your body hydrated.\*

## How It Works

Amare Electro provides a 2:1 ratio of sodium to potassium to help maintain electrolyte balance in the body.\*

- Potassium plays a key role as both an electrolyte and a mineral—supporting cellular hydration, nerve signaling, muscle function, and heart health.\*
- Sea Salt delivers essential electrolytes like sodium to help support fluid balance in the body

## The Science

Why Are Electrolytes Important? They play a vital role in maintaining fluid balance in the body—an essential factor for proper hydration. Amare Electro is a smart way to hydrate with key electrolytes and minerals that help support hydration where it matters most: at the cellular level.\*
