

Amare MentaFocus[®]

Find your focus

What It Is

A targeted blend of key phytonutrients to support focus and cognitive function in healthy adults.*

Why You Need It

Today, life is full of distractions, from buzzing phones and dings to managing multiple tasks while handling interruptions. It's not easy to find the focus to get in the zone and power through.

How It Works

MentaFocus combines Pomegranate Extract and our GBX Proprietary Blend.

- Pomegranate Extract is a phytonutrient that supports focus and cognitive health.*
- Amare GBX Proprietary Blend is a combination of Asian Apple, New Zealand Pine Bark, and French grape that provides antioxidants to protect cells against oxidative damage caused by free radicals.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

The Science

Your ability to focus takes more than will-power; it relies on a complex network of neurotransmitters and neural pathways. Phytonutrients—bioactive compounds from plants—play a key role by supporting brain health and reducing oxidative stress, for more resilience, rather than just quick boosts.*

How To Use It

- Take two capsules in the morning with 8 oz of water.
