

Amare EDGE+™ Trio Flavor Pack

Three flavors. Three vibes.
One powerful edge.

What It Is

Amare EDGE+ delivers plant-based nootropic support for cognitive performance—and this exclusive pack is the only way to experience the NEW limited-edition Blue Raspberry flavor, plus Watermelon and Grape, all in one bold lineup.*

- **10 NEW, limited-edition Blue Raspberry stick packs**
- **10 Watermelon stick packs**
- **10 Grape stick packs**

Why You Need It

Have you ever felt like you've lost your edge? Maybe your mind isn't firing like usual, or you can't find your flow. Amare EDGE+ is formulated with ingredients made for those moments. Whether you've got a lot on your plate or need to kick things into gear, the ingredients in Amare EDGE+ can help you stay dialed in when it matters most.

The Science

Nootropics are the new way to stay sharp. This category of ingredients is known to support and enhance mental performance by promoting neurotransmitter activity and helping the brain perform, even under pressure. Amare EDGE+ is an expertly formulated plant-based blend of nootropics that support motivation, mental flow, memory and more.

How to Use It

Simply mix one stick pack with 8 ounces of cold water and enjoy.

Sip Amare EDGE+ solo daily or mix with MentaBiotics® for Amare Happy Juice and a more complete approach to your mental wellness.

How It Works

Each flavor is powered by plant-based nootropics.

All three flavors (Grape, Watermelon, and Blue Raspberry) feature Mango Leaf and Lion's Mane.

- **Mango Leaf is a sustainably sourced, botanical powerhouse that's packed with beneficial compounds and a variety of bioactive nutrients to help support motivation and mental flow.***
- **Lion's Mane has been used in traditional Chinese and Asian cultures for centuries and helps to support healthy memory.***

The Watermelon and Grape Flavors include Lychee Fruit and Palm Fruit

- **Lychee Fruit is a tropical fruit that provides a rich source of bioavailable polyphenols—powerful plant compounds that help support endurance for both body and mind.***
- **Palm Fruit is sustainably harvested and rich in flavonoids to support neuron health***

In new limited edition Blue Raspberry, Palm Fruit and Lychee Fruit are replaced with a new, cutting EDGE version featuring Nutricog® supporting multiple areas of cognitive function.*

- **Nutricog® is clinically demonstrated to improve a wide range of areas in cognitive function, including focus, attention, learning, working memory and executive function, plus it has shown improvements in cognitive speed and accuracy while multitasking.***

In a randomized, double-blind, placebo-controlled clinical study, the key ingredient Nutricog®, found in Amare EDGE+ Blue Raspberry, has shown:

- ✓ **2.7x improvement in Learning Rate^{†^*}**
- ✓ **2.3x improvement in Delayed Recall^{†*}**
- ✓ **2.1x improvement in Recognition Index^{†*}**
- ✓ **1.6x improvement in Overall Learning^{†*}**
- ✓ **1.4x improvement in Immediate Recall^{†*}**
- ✓ **Clinically shown to improve Focus^{†^*}**
- ✓ **Supports healthy BDNF levels^{‡*}**

[†]Each figure reflects improvement from participants' own baseline to Day 120, not a comparison to placebo. In the same randomized, double-blind, placebo-controlled study (300 mg/day for 120 days, adults ages 40–65 with subjective memory concerns), the Nutricog® group also improved significantly more than placebo ($p < 0.001$). Results may vary; individual results not guaranteed. (Salter et al., Frontiers in Nutrition, 2025.)

[^]Focus improvement measured as reduction in proactive interference score (resistance to distraction). Learning rate improvement reflects rate of improvement over time within the own baseline.

[‡]BDNF (Brain-Derived Neurotrophic Factor) is a naturally occurring growth factor.
