

Amare EDGE+™ Mango Glow

Meet Your Focus Glow Up

Just add MentaBiotics®
to complete your Amare Happy Juice®!

Why You Need It

Need to give your focus a glow up? Whether you're jumping into a big meeting, tackling a packed schedule, or checking off your to-do list, Amare EDGE+ Mango Glow is formulated with science-backed ingredients that help support focus, mental clarity, and cognitive performance—so you can find your flow and bring your best to every moment.*

How it Works

Amare Edge+ Mango Glow is designed with plant-based nootropics including Nutricog®, a patented blend of Boswellia and Haritaki, plus Mango Leaf, Lion's Mane, Citicoline and Natural Caffeine.*

- **Nutricog®** supports multiple areas of cognitive function, including focus, attention, learning, working memory, delayed recall and immediate recall.*
- **Mango Leaf** is a sustainably sourced, botanical powerhouse that's packed with beneficial compounds and a variety of bioactive nutrients to help support motivation and mental flow.*
- **Lion's Mane** has been used in traditional Chinese and Asian cultures for centuries and helps to support neuron health and memory.*
- **Citicoline**, a precursor to neurotransmitters.*
- **Natural Caffeine**, from green coffee beans supports body and mind energy.*

The Science

Nootropics are the new way to stay sharp. This category of ingredients is known to support mental performance by supporting the brain's natural performance, even under pressure. Amare EDGE+ Mango Glow is an expertly formulated plant-based blend of nootropics that support focus, memory, motivation and cognitive performance.*

In a randomized, double-blind, placebo-controlled clinical study, the key ingredient Nutricog®, found in Amare EDGE+ Mango Glow, has shown:

- **2.7x** improvement in Learning Rate⁺⁺
- **2.3x** improvement in Delayed Recall⁺⁺
- **2.1x** improvement in Recognition Index⁺⁺
- **1.6x** improvement in Overall Learning⁺⁺
- **1.4x** improvement in Immediate Recall⁺⁺
- Clinically shown to improve Focus⁺⁺
- Supports healthy BDNF levels⁺⁺

*Each figure reflects improvement from participants' own baseline to Day 120, not a comparison to placebo. In the same randomized, double-blind, placebo-controlled study (300 mg/day for 120 days, adults ages 40–65 with subjective memory concerns), the Nutricog® group also improved significantly more than placebo (p<0.001). Results may vary; individual results not guaranteed. (Salter et al., Frontiers in Nutrition, 2025.)

⁺⁺Focus improvement measured as reduction in proactive interference score (resistance to distraction). Learning rate improvement reflects rate of improvement over time within the own baseline.

⁺BDNF (Brain-Derived Neurotrophic Factor) is a naturally occurring growth factor.

How to Use

1. Simply mix one stick pack with 8 ounces of cold water and enjoy.
2. Sip Mango Glow solo daily, or mix with MentaBiotics® for a new spin on Happy Juice and a more complete approach to your mental wellness.
